Oishi Chowdhury	18-36807-1

United online shopping mart

Introduction:

The pandemic of Covid-19 has locked the whole world indoors. The situation has been adopted by consumers and online shoppers to have risen by 70 to 80% .

Our main concern to reduce the physical work ,like people can buy there essential things by not going anywhere and there will be so many products to compare and choose the best one for himself/herself.

Background Study

Online shopping has become a popular way of shopping for consumers. This new innovation for shopping not only brings a great number and variety of merchandise to potential consumers, but also offers a numerous business activities and huge market. Social media is no longer known only as a media that facilitates its users to present themselves on the internet but also as media to sell some products to consumers known as an online shop. Because of the numerous advantages and benefits, more people say that they prefer online shopping over conventional shopping these days (Singh & Kashyap, 2007).

We study about Daraz, Aliexpress ,Alibaba, those are most popular online shops . base on those shop we will try to do something like that and also do something new by adding some new features and also make a user friendly web site.

Requirement Analysis:

1. User Category:

There are 4-types of Users here. They are:

- Super Admin (RISHAT, MD. AL-SAMIUL AMIN)
- Admin
- Seller
- Customer(Oishi Chowdhury)

2. Feature List:

In this project the “Super Admin” has the following features:

- Add client
- Edit client
- Delete client
- Client list
- Discount
- Block any shop/ client
- Store details
- Unblock client
- Search client
- Recover client password
- View the user report
- Daily sell
- Total sell
- Print the report (pdf)
- Commission
- Login
- Registration
- View Profile
- Forget password
- Edit Profile
- Logout

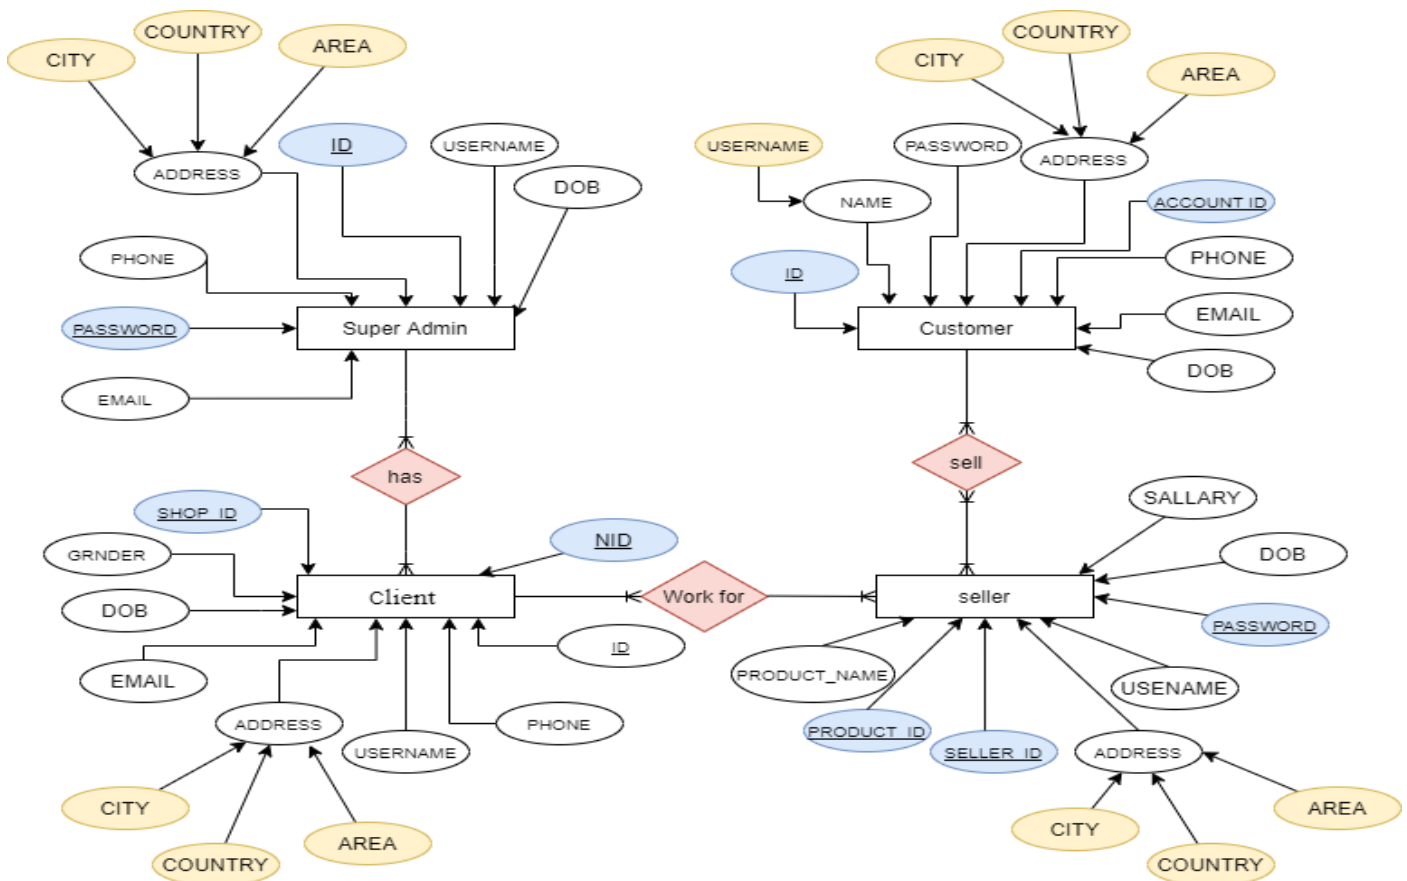

In this project the “Customer” has the following features:

- Search product (search box)
- Search by category
- Search by product range
- Buy product

United online shopping mart

- Add to cart
- Give product review
- Track the order
- Payment method
- Massaging
- Feedback
- Media link
- Delivery method
- Give rating
- Customer care
- See history
- Manage history
- Booking
- Login
- View profile
- Edit profile
- Delete profile
- Logout

Design:

Tools Used:

- Subline
- Xampp
- Browser
- Draw.io
- W3school

After client login there can upload there product image so the have to fill up this form .

Impact of this Project:

In this pandemic situation this project will be very helpful and most secure system to buy necessary things and Our fundamental worry to diminish the actual work ,similar to individuals can purchase there fundamental things by not going anyplace and there will be such countless items to think about and pick the best one for yourself.

Limitations and Possible Future Improvements:

Seller can cheat with customer ,like wrong product delivery , it can be improve further with more security. There is no image search system or voice search system , so it can be prevent further.
